

EVALUAREA DE CĂTRE STUDENȚI A DISCIPLINELOR DE STUDIU ȘI A CADRELOR DIDACTICE – SPECIALIZAREA MANAGEMENT

Periodic studenții de la Facultatea de Științe Economice – Specializarea MANAGEMENT răspund la chestionarele de evaluare a disciplinelor de studiu și a cadrelor didactice. Astfel, chestionarele sunt definite în Google Forms și studenții completează online aceste chestionare, fără a menționa numele și prenumele sau alte date de contact.

Exemplu chestionar evaluare disciplina de studiu si cadru didactic

The image displays three sequential screenshots of a Google Form. The first screenshot shows the title and introductory text of the survey. The second and third screenshots show the evaluation scale, which consists of five radio buttons for each item, ranging from 'Foarte slab' (Very weak) to 'Foarte bine' (Very good). The items being evaluated include the course content, the lecturer's knowledge, the lecturer's communication skills, and the lecturer's teaching methods.

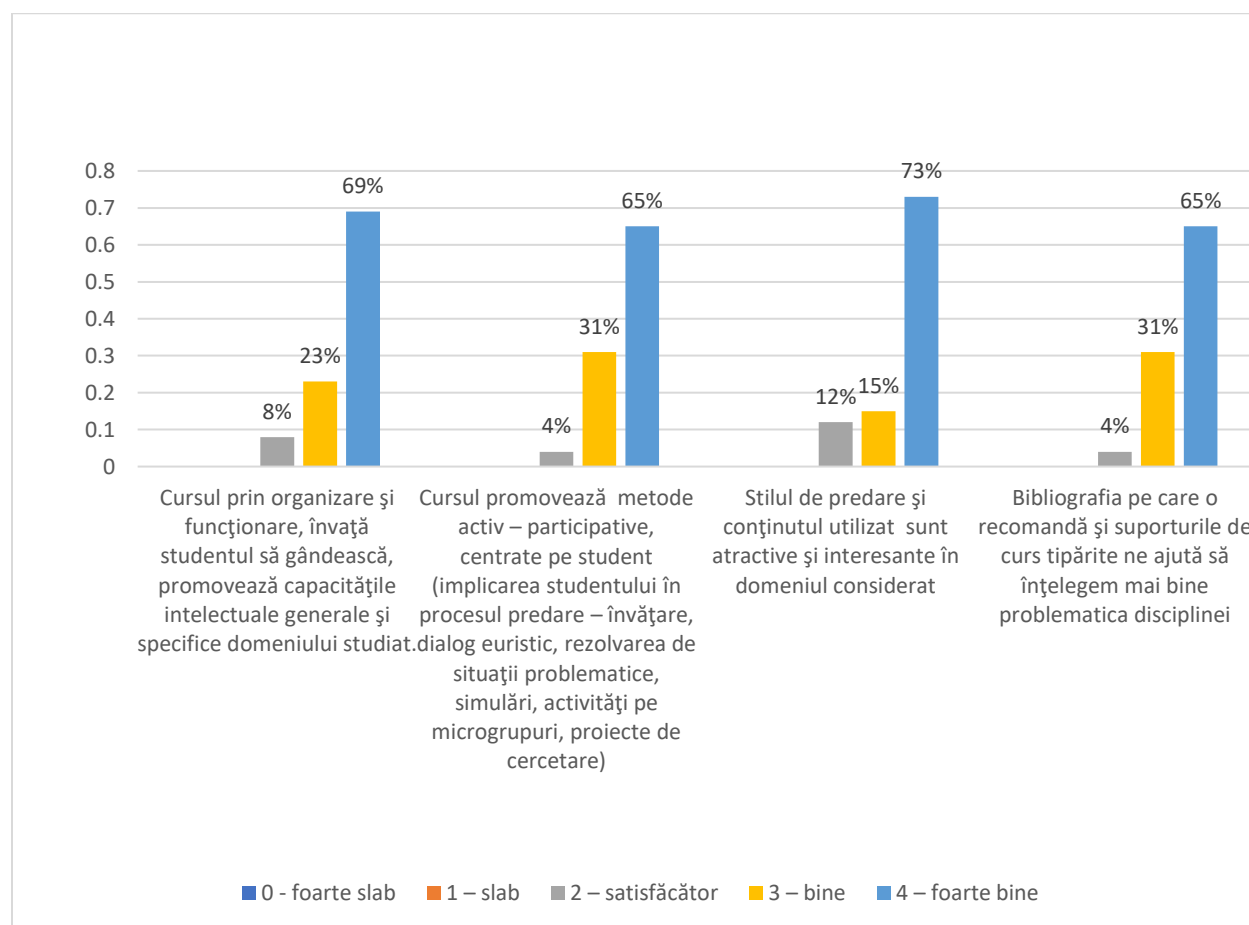

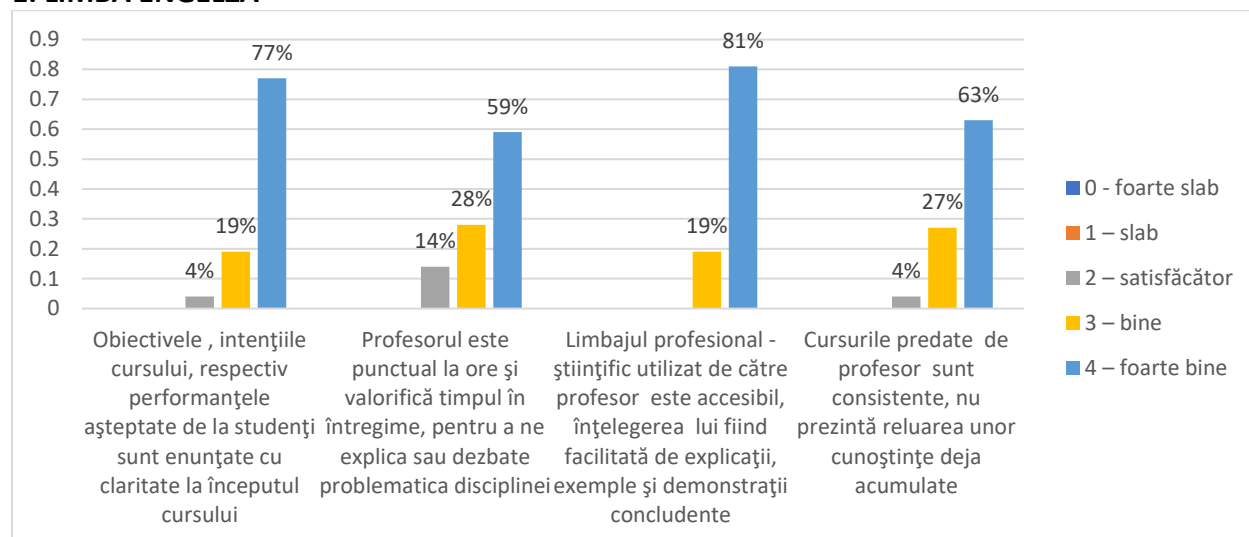

Fiecare student de la MANAGEMENT a primit un mesaj de genul celui de mai jos prin intermediul Platformei ECON-ZI în vederea realizării acestei evaluări periodice.

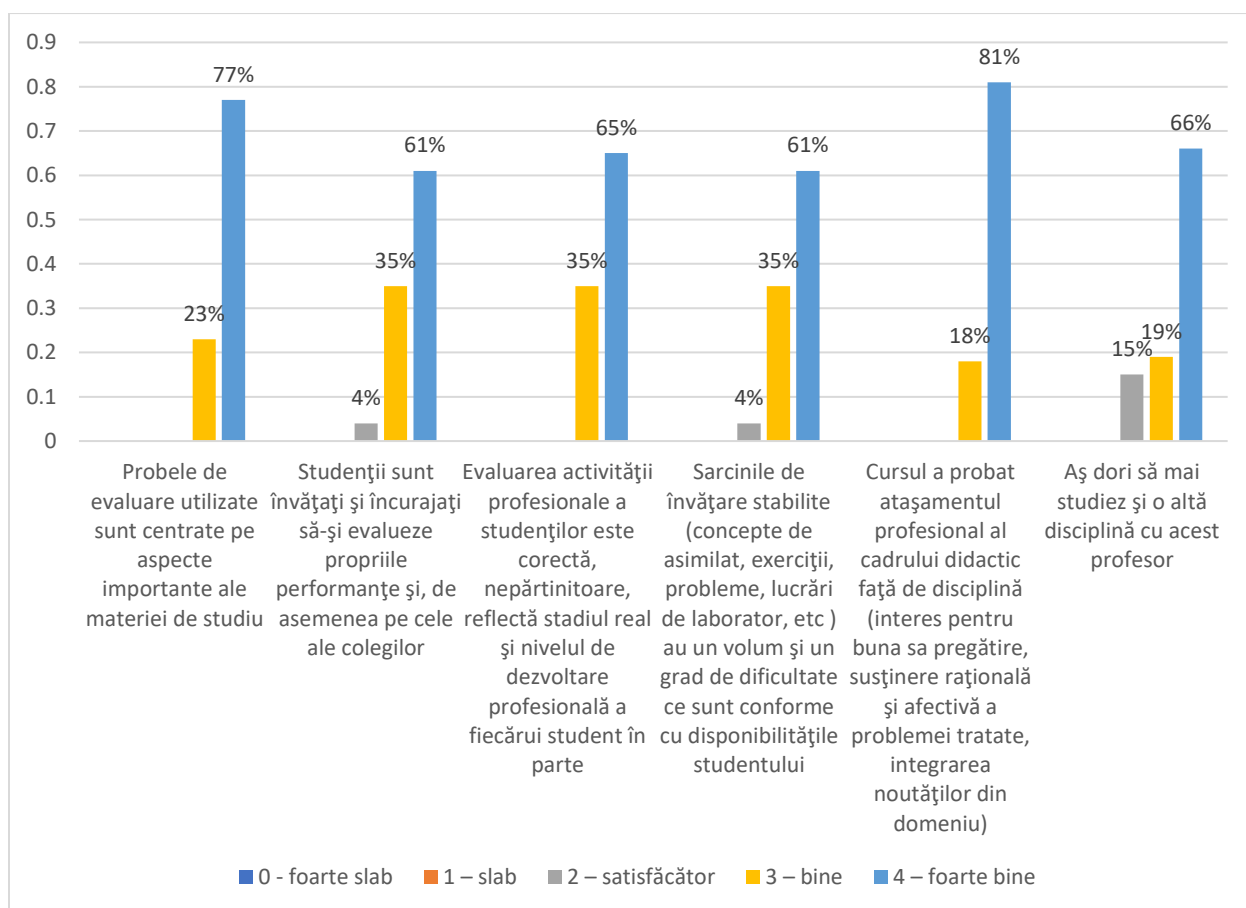

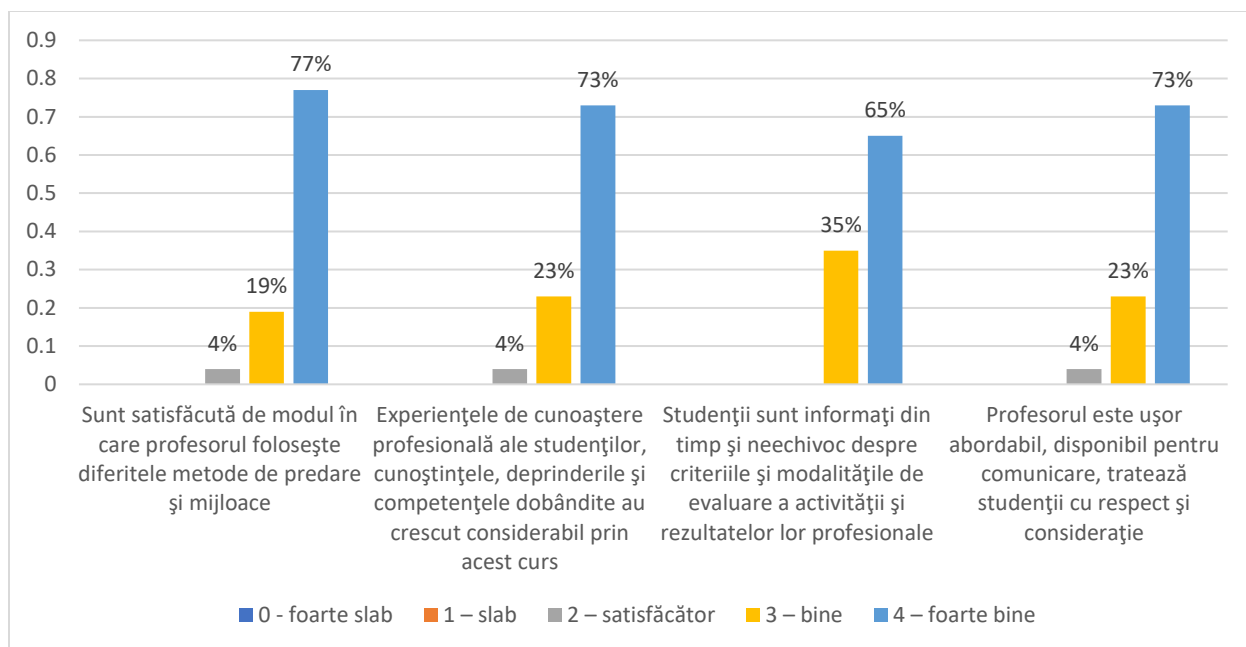

The image shows two screenshots of a WhatsApp conversation. The first screenshot shows the start of the message, with the sender's name 'FLORENTINA - LETITIA C.' and the time '17:44'. The second screenshot shows the full text of the message, which is a request for the student to complete a survey for the course 'MATEMATICA APLICATA IN ECONOMIE' and the lecturer 'PROF. DR. MARIANA BALAN'. The message includes the survey link and the deadline for completion.

Având în vedere rezultatele obținute în cadrul acestei evaluări, conducerea Facultății de Științe Economice a propus următoarele măsuri:

- instruirea periodică a cadrelor didactice în vederea menținerii unui nivel de apreciere cât mai ridicat din partea studenților;
- revizuirea periodică a materialelor suport realizate de cadrele didactice în vederea prezentării unor informații actuale din toate domeniile de studiu;
- asigurarea transparenței instituționale și diseminarea rezultatelor centralizate ale acestei evaluări prin mijloacele de comunicare ale Universității Hyperion;
- îmbunătățirea metodologiei de cercetare în vederea creșterii cu minim 10% a numărului de studenților respondenți la următoarea evaluare a disciplinelor și cadrelor didactice.
